L005837

Professional 20-units pure balanced armature acoustic earphones, impedance: 20Ω, sensitivity 106db, frequency : 10-40000HZ, light weight 27g, high performance aluminium hardware, 3.5mm plug, 3 channel guide tone, electronic crossover.

TECHNICAL DETAILS

Description / Details

20 unit balanced armature earphones.
Industrial design.
4 frequency divider, 3 channel guide tone.
Ergonomic design, comfortable fitting.

Technical Specifications

Impedance: 20 Ω
Frequency range: 10 - 40,000 Hz.
3,5 mm plug type.

PHOTOS

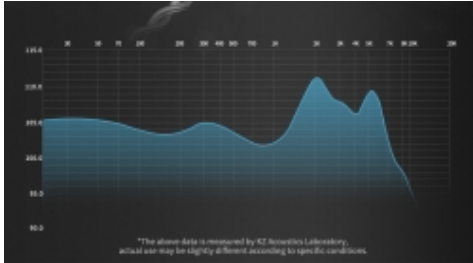

It is enough to replace the peak of acoustic configuration and adjustment in the performance stage
Unit architecture that takes into account both acoustic performance and comfort

High-precision digital modeling 3D printed acoustic inner support parts avoid mutual interference of 10 moving iron frequency bands and reduce the resonance effect of the cavity. A rigorous and scientific architecture design takes into account the actual sound quality of each frequency band.

0.75mm 2pin 100 core standard professional silver plated cable
Switchable line interface opens up the unlimited possibility of upgrading

Equipped with high-quality silver-plated wire to improve transparency, separation, sound field, etc., and reduce signal loss in delivery. Support to upgrade to a Bluetooth headset by replacing the Bluetooth module.
